

Unleash the Potential in Your Workplace

Managed Apple Devices from £14* a month

Trams

Smart*Business*, the latest offer from Trams, infuses Apple hardware with our own premium solutions to save your company resources, and improve productivity across all departments.

Through Apple Finance Services we deduct 20% off the Apple hardware purchase price, by recognising the future residual value up front, and spread the remaining cost over a transparent 24 or 36 subscription plan. We combine the devices with TramsCloud, our advanced enterprise hosting environment for your very own Jamf Pro instance, along with a comprehensive insurance package for an all-in-one cost-effective solution to securely equip your employees.

Why SmartBusiness?

Trams

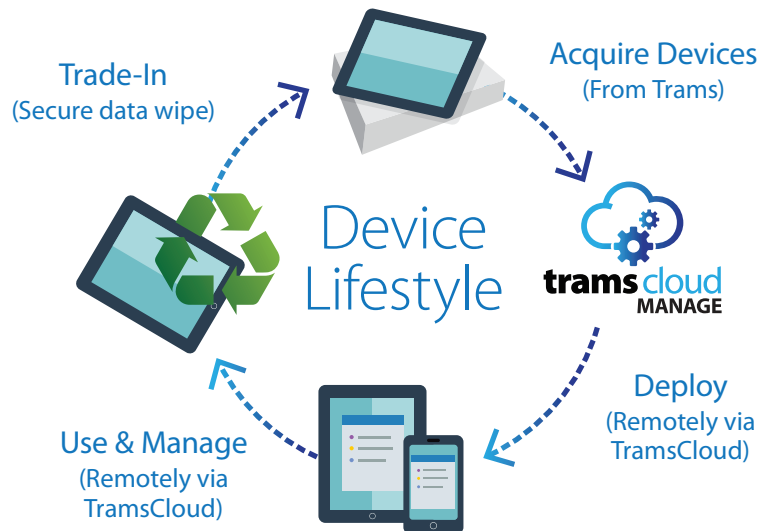

In a technological age employees expect the latest equipment available to maximise their efficiency and productivity. With SmartBusiness you can equip your staff with up-to-date technology and take advantage of the latest features.

After two or three years you return the old equipment and receive a new replacement from Trams.

How does SmartBusiness Work?

A standard SmartBusiness configuration includes 25 x iPhone 7** or 25 x iPad* with 2 years insurance and a 2-year subscription to TramsCloud Manage.

What is TramsCloud Manage?

TramsCloud Manage is a hosted and enhanced version of Jamf Pro, designed to empower businesses to be self-sufficient whilst reducing costs. With TramsCloud Manage you can rollout updates to all devices, remotely access or control end user technology to maintain security and troubleshoot issues wherever they are across the globe.

Finance for business purposes only. Subject to acceptance and affordability checks. Applicants must be 18 or over. Available on new equipment only.
